Solving

Democracies are a dictatorship of an elected leadership. Solving will create and support **self-appointed leaderships** that will compete with this dictatorship while keeping the government services functioning at any time.

Democracies deteriorate if left alone. Solving is the solution that prevents the deterioration of democracies.

This will happen with:

1. No force or threats.
2. No fraud or dishonesty.
3. No politics.
4. No purity of intentions among practicioners.
5. No defaulting on the thinking process.

Our motto:

"I have a Plan!"
