

Who will ride Princess Celestia next?

About this screenplay

Objective

[

«

As an example, we can imagine a young girl to write a funny screenplay using [GitHub](#) or Google Docs which pits [Emma Watson](#) vs. [Kim Kardashian](#) on who gets to ride [Princess Celestia](#) (= an intelligent, talking, pony horse) next, with [Darth Vader](#) and [Haman](#) as two "evil", but mutually hating one another, arbiters. Might seem ridiculous, but if I didn't want entertainment in my life, then I'd go watch

grass grow. It will be a legal and "ethical" minefield, but I'd bet it'd be easier to follow and more entertaining than [Tolkien's "Lord of the Rings"](#) was even shortly after LotR was written.

Well, I'm a 44 years old man, but I accepted my own challenge...]

Scary story

[[Discord](#), [Applejack](#), [Fluttershy](#), and [the Cutie Mark Crusaders](#) (= [Apple Bloom](#), [Sweetie Belle](#), and [Scootaloo](#)) are sitting around a bonfire in [Equestria](#) at night.]

Discord: Does everypony want to hear a scary story?

The rest: "yes", "sure"

Discord: Alright! So Emma Watson and Kim Kardashian were sitting on a bench at [Rabin Square](#) in Tel Aviv, going over their social media backlog.

Who will ride?

[Emma and Kim are sitting and using their smartphones.]

Emma: Hey Kim, check this out: “Basically, there were two sides to the world. There was the entire computer games software industry engaged in a tremendous effort to stamp out piracy, and there was Wobbler. Currently, Wobbler was in front.” [[Reference: Terry Pratchett](#)]

Kim: heh, good one.

[Princess Celestia (= an intelligent, talking, pony horse) gallops behind the bench carrying a human boy on her back.

She stops and the boy unmounts.]

Boy: thanks for the ride, your highness [he walks away].

Princess Celestia: my pleasure.

Emma: hey, Princess C, can I ride you now?

Kim: can I? I'll give you 1,000 dollars!

Emma: 2,000!

Kim: 3,000!

Princess Celestia: hold your ponies, guys. Let me summon some Evil arbiters.

Princess Celestia: Hey, Vader, please come here for a moment. [She whistles.]

[Darth Vader and [Haman](#) enter the frame.]

Vader: Greetings, your highness. How can Haman and I help?

Princess Celestia: Can you please decide who of Emma and Kim here is going to ride me first?

Vader: Sure... how about they do a Chess match?

Haman: Checkers! I hate Chess.

Vader: you do? Then how about [Street Fighter II](#)?

Haman: I prefer [Mortal Kombat](#)!

Vader: Next thing you'd tell me you don't like [single-player card games, also known as "Solitaires"](#)!

Haman: actually, I'm partial to [Freecell](#)...

Vader: Really? So am I!

Vader: OK, the first woman to have solved the first 1,000 [Microsoft FreeCell deals](#)
...

Haman: ...in order, and without using [an automated solver](#)!

Vader: yeah, - shall ride Princess Celestia next!

Kim: Sounds good.

[Emma and Kim start playing.]

Haman: by the way, Vader, I also like the Solitaire game [Simple Simon](#).

Vader: Get out!

Vader: Haman, [this seems like the beginning of a beautiful friendship](#).

[Vader and Haman walk away.]

Discord's voice: Princess Celestia waited and waited.

Discord's voice: Actually, she waited for less than a minute, and then cast a spell that made Kim and Emma forget what they were competing for, opened a portal back to Equestria, and stepped through. [Princess Celestia is seen grinning and chuckling.]

Discord's voice: Emma and Kim kept playing Freecell for 10 more minutes, at which point [Shlomi Fish](#) came.

Shlomi: hey Kim, hey Em! Let's return to [the con](#) now.

Kim: not now, Shlomi. Emma and I are competing for who will solve the first 1,000 Microsoft FreeCell deals first. Without using an automated solver.

Shlomi: Really? That should take you at least a few good hours. Surely you remember that from us collaborating on [fc-solve](#) [References: [Emma Watson](#) ; [Kim Kardashian](#)].

Emma: Yes, you're right. Kim, do you remember what we were competing for?

Kim: No...

Emma: Oh well... Let's head over back to the convention then.

[They go.]

Not scary but fun

[Cut to the Equestrian bonfire.]

Discord: and so we'll never know who would have solved the first one thousand [Microsoft FreeCell deals](#) first - Emma Watson or Kim Kardashian... muahahaha.

Apple Bloom: fun story, Uncle Discord, but it wasn't really scary.

Applejack: yeah! Not scary, but fun.

Discord: fair enough... I guess one should look at the full half of the glass.

[He snaps his fingers, and a glass of juice with a straw materialises.

Discord drinks the bottom half, and the upper half floats in mid-air.]

Fluttershy: I know a story... a joke... not scary, but hopefully fun and funny.

Fluttershy: So they hold a contest to see which intelligence agency can find a rabbit in a forest as quickly as possible... [\[Continuation\]](#)
