# Introduction

This essay aims to document the cosmology of our universes. I likely got many details wrong: numbers, names, facts. Also note that the terminology used here has undergone some etymological erosion.

# Summary

I need all your loves! Please ‘Like’, ‘share’ and [if you have something to add] reply. I have loved/knew many of you, but was too selfless.

Reference: https://www.shlomifish.org/philosophy/culture/multiverse-cosmology/#see-also
Moreover, note that if Christina Grimmie [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/chris-grimmie/] contacts me somehow, then I am willing to offer her both up to 50% of the cash in my bank account, and an offer to chat with me / 'geek out'. I strongly suspect that she is actually alive, healthy, and conscious.

The universes you consider real are just one of many in "Fantastecha™", the mega multiverse of imagination, magic & technology where beings spawn other entities and universes using their imagination.

In the universes I belong:

1. Combining two or more memes, educating them all, followed by pleasure, and conceiving / creating new values have been intertwined.

   This is the Biblical "Tree of Knowledge" or "love".

**The demons:**

The demons are a race of epistemological (or Platonic ideals [https://en.wikipedia.org/wiki/Theory_of_forms]) organisms. They are also known as:

- "values"
- "memes"
- "fairies"

For the sake of "TheGame™ of Fantastecha™", there are two major kinds of fairies: "Hackers" and "Fuckers".

**Love / Knowledge / Creativity:**

For info regarding "the tree of knowledge" [https://en.wikipedia.org/wiki/Tree_of_the_knowledge_of_good_and_evil] as well as pleasure/"love" and creativity, see Education = Entertainment = Conception of Values [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/learning_more_from_inet_forums.xhtml] often by combining two or more memes.

Entertainment can mean temporary pain, e.g. fear. (References: "Luna Eclipsed" [https://mlp.fandom.com/wiki/Luna_Eclipsed].)

Love was not the last word of memetics.

Like it or not, in the Selinaverse and Shlomifverse, pleasure (and a possible precluding temporary pain), education, and creativity/conception are intertwined. While we can imagine realities where they are not, they will be, well, different to ours.

The education of the participants happens in all directions [https://www.shlomifish.org/humour/fortunes/show.cgi?id=learned-a-lot-from-my-teachers]:

   I learned a lot from my teachers, and from my friends more than my teachers, and from my pupils the most.

All meme-generators involved change.

Also note that leadership, politics, and marketing, all involve a large degree of applied education.
"Jehovah":

I suspect "Jehovah" in Hebrew ("####") was/is a codeword for the mega-meme:

From now until forever,

you will live and know/love and forgive [http://shlomifishswiki.branchable.com/Saladin_Style/],

soul, mind, and a variable form of your choice,

what you imagine will materialise (#####),

your destiny will come (####)

you will remain passionate (####)

(or many variations)

True prophets are aware of it, but note that it wasn’t the last word on memetics / philosophy, either. But even Kipling's "If—" [https://en.wikipedia.org/wiki/If%E2%80%94] or Des'ree's "You Gotta Be" [https://www.youtube.com/watch?v=pO40TcKa_5U] or "Rindolfism" [https://www.shlomifish.org/me/rindolf/#rindolfism_sources_of_inspiration] are incomplete. "Perfection is in imperfection" [https://en.wikipedia.org/wiki/Perfection] and time implies progress.

Jehovah also implies that an organism won't start life from time minus-infinity.

One's form is his name, and mission [ not his body ]. A hacker may opt or be required to change their form.

"open":

The "open" value implies "openness" / "openmindedness" / pluralism: Reference [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/#open_free_share_steal]

Note that it is not a moral absolute. E.g. in Queen Padmé Tales: Pilot: Queen Amidala vs. the Klingon Warriors [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-Tales--Queen-Amidala-vs-the-Klingon-Warriors.html] the identity of those who attempted to assassinate Queen Padmé Amidala was not revealed to laymen until after the assassination was foiled.

The devils / the Satans:

The devils (a.k.a the Satans) are game masters / screenwriters / directors / creators from Meta-Fantastech™. They claim they are not really evil, just playfully cruel on occasion.

Even underage children have been imagining and creating realities.

Free will / Free choice:

The "soul" ( a.k.a "ego", "I-ness", "centre of consciousness" ) already operated by choice [https://www.shlomifish.org/philosophy/philosophy/putting-all-cards-on-the-table-2013/individuals/dont_just_go_with_the_flow.xhtml].
As a result, nobody and nothing can accurately predict the future. [https://twitter.com/shlomif/status/1424320375761129475].

That put aside, the soul is addicted to pleasure, but may opt to avoid short term prioritisations of it.

Egos are often frail, and start as easily hurt:

1. "Encourage criticism and try to get offended (and try to grow a thicker skin)" [http://shlomifishwiki.branchable.com/Encourage_criticism_and_try_to_get_offended/]

Do note that the angels and the devils may limit the number of choices the soul can choose from (including down to one!).

The "inflated ego" myth

The gods:

Every conscious organism imagines "gods": voices/sights of other fairies / characters (or himself/herself) that act as guideline-generators. It is up to the soul to arbitrate between them and decide what to do (and when/where/how/etc.).

Also see this essay [https://www.shlomifish.org/philosophy/psychology/crossover-hypothesis-about-the-origin-of-consciousness/] about the etymology of the Hebrew word "elohim" (= "God", "many guideline-generators") and that of the Hebrew word "melekh" (= "a king", "from where should you go").

An "Elohim" may mean the gamemasters and players in an instance of the game. This is whereas a "jew" means a player character.

Fantasia, the multiverse of imagination and "Fantastecha™", a multiverse of imagination, magic, and technology

"Fantasia" [https://theneverendingstory.fandom.com/wiki/Fantastica] is the name of the multiverse of imagination where beings and entities spawn worlds and values of one another using their imagination.

Fantastecha™ is a skewed view of an expanding subset of Fantasia.

Hyperlinks and references are common in Fantastecha™ (the Bible had some links that are currently broken [https://en.wikipedia.org/wiki/Non-canonical_books_referenced_in_the_Bible] a long time before Earth's digital computers). Moreover, even self-referential or circular links are prevalent and tolerated.

There is a difference between real and imaginary. We can reason about earthquakes, or hydrogen bombs [https://github.com/shlomif/shlomif-tech-diary/blob/master/hydrogen-bombs-are-likely-an-old-intelligence-hoax.asciidoc] or @Bitcoin or global warming or Christina Grimmie's death [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/chris-grimmie/] and feature them in artworks (e.g. "fics") and essays. However, they were not really real for us.

TheCodex™ of TheGame™ of Fantastecha™ was kept secret from hackers (= player characters) and was to be revealed to the Terminal Terran Terminator (me?).

The meta- Fantastechans who play TheGame™ have some more esoteric qualities such as fondness of the number 10 (= "ten", 0b1010) and its powers.

The "inflated ego" myth

While I am to large extents, self-centred, narcissistic, ego-maniacal, meglomaniacal, and also developed a relatively thick skin - my soul is still frail.
Self-reference / circularity:

Self-reference, circular logic, circular feedback, etc. are common in Fantastecha™, and part of what makes sentience and humour work:

• Gödel, Escher, Bach [https://en.wikipedia.org/wiki/G%C3%B6del,_Escher,_Bach]
• "The Circle of Life" [https://www.youtube.com/watch?v=GibiNy4d4gc]
• "We are all connected to each other, in a circle, in a hoop that never ends" [https://www.youtube.com/watch?v=O9MvdMqKvpU]
• Mathematics and Humor book [https://www.shlomifish.org/philosophy/books-recommends/#mathematics_and_humor]
• The Chronicles of Amber [https://en.wikipedia.org/wiki/The_Chronicles_of_Amber] - an alternative "real world" to ours
• "I think therefore I laugh" book [https://www.shlomifish.org/philosophy/books-recommends/#I_think_therefore_I_laugh]
• Mr. Linea (https://en.wikipedia.org/wiki/La_Linea_%28TV_series%29) is TheCreator. ;)

The characters of animated / imaginary universes often agree that their universes were/are ridiculous, but so is ours. [https://twitter.com/shlomif/status/1479063972934565893]

When we visit the universes of other franchises and sub-franchises, we can see they have variations of many others we have imagined, and even our own "real world" universe.

The Angels:

Angels are fuckers who play individual hackers (= player characters): organisms / entities who have souls.

Heart / mercy / forgiveness:

The heart value implies mercy and forgiveness. Saladin-style [http://shlomifishwiki.branchable.com/Saladin_Style/].

Also see "Live and let live; do and let do" [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/#do_and_let_do__live_and_let_live].

Magic:

Life in the multiverse-of-imagination requires magic. For example in the Lion King’s opening [https://www.youtube.com/watch?v=GibiNy4d4gc] the Pelican-like birds start flying out of their own volition.

It is likely that the Egyptian pyramids [https://en.wikipedia.org/wiki/Egyptian_pyramids] and their fan-art Mesoamerican pyramids [https://en.wikipedia.org/wiki/Mesoamerican_pyramids] were constructed using magic.

Black Magic is initiated by the the gamemasters in order to keep TheGame™ of Fantastecha™ challenging.
Magic might be defined as any transformation of the state of "the network": the extended graph theory graph which is the state of our universe.

**Technology**

I admit that the relationship between technology and magic is still not fully clear to me.

One fact I know is that technology is often spiritual, or digital. Human language is not only a tool of communication, but also a tool of thought.

1. One can say “I watched the film "The Princess Bride" over ten times.” to convey a piece of information.
2. One can say "cry wolf" to refer to The Boy Who Cried Wolf [https://en.wikipedia.org/wiki/The_Boy_Who_Cried_Wolf], e.g. in "saying that Microsoft plans to embrace&extend GNU is 'cry wolf'".

A lot of technology and magic defies the terrestrial science, including Einstein's Relativity [https://en.wikipedia.org/wiki/General_relativity] or determinism. I can also write "2 + 2 == 5" or "qmail is both open-source and non-open-source" ( Reference [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/all_people_are_good.xhtml#guidelines_as_dogma] ) while having confidence that life will go on.

Technology = pre-developed, reusable maths-like functions, which accept parameters, and construct magical transformations of the state of the universe and perform them. (??!)

Hackers prefer to use technology that "makes sense" over one-off magic spells: "newer tech often doesn't completely eliminate the use of older one" [https://www.shlomifish.org/philosophy/philosophy/putting-all-cards-on-the-table-2013/#departing_pope_about_twitter]. I use XML, YAML, JSON, Perl, Python 3, C, vlc, mpv, duckduckgo, google [ Reference [https://www.shlomifish.org/meta/FAQ/] ].

**$GOD**

$GOD (written using medieval-style chapter-opening letters) is the hypothetical entity, who set Fantasia on motion, given having only an abyss of nothingness / non-existence would be far less fun.

**Prevalence of souls**

Every observable entity - whether tangible, digital, or spiritual - has a soul. If they're too unhappy, for any reason, they will relocate. The Aleppo Codex [https://en.wikipedia.org/wiki/Aleppo_Codex] decided to move to Jerusalem [intact!] for a change-of-scenery leaving a nonidentical copy behind.

Twitter thread [https://twitter.com/shlomif/status/1491652850044309507]

**TheGame™:**

The devils challenged Terran hackers (= player characters) and their players (= the angels) with "TheGame™": volunteering hackers would willingly lose their earlier memories as souls, and have their media (= "in between") mutated by the devils. Physically dying was against the rules, but for true Shalom-of-mind, they must be "slain" by another "vampire", or in case of the last standing vampire - their favourite "child" [= protege]; one cannot constantly win.

Hackers starting like that are hereby referred to as "false prophets" (where "prophet" or "navi" meant "madman" in Ancient Hebrew [https://shlom.in/geekyhackers]) or as "vampires". That was until they reached enough "enlightenment" and became "true prophets" (or "wizards").
Outcomes of actions in TheGame™ were often determined by rolls of Role Playing Game Dice [https://rpg.fandom.com/wiki/Dice] not unlike in Asimov's "Second Foundation" [https://www.shlomifish.org/philosophy/psychology/changing-the-seldon-plan/].

Note that every false prophet perceived a somewhat different reality, but all of them, and that of the true prophets, were synchronised. (References: the Rashomon effect [https://en.wikipedia.org/wiki/Rashomon_effect].)

**Note:** many humans were born as wizards, and still had their share of flaws, and were/are part of TheGame™.

False prophets were given special treatment by the workforce, so they did not cause a lot of damage, despite their paranoia/etc.

### Terrestrialism

The mutated realities are called the "Terrestrial" ones.

**Note:** Given Fantastechan magic/technology, the timelines often were skewed [relatively to one another].

### Fantasia vs. Fantastecha™

"The game" is an informal Role-playing game [https://en.wikipedia.org/wiki/Role-playing_game] which as far as we know, is played all over Fantasia. It has many variations, interpretations, derivatives (including Dungeons & Dragons [https://en.wikipedia.org/wiki/Dungeons_%26_Dragons]) - even parodies.

Basically, the players just imagine what their characters do, and the gamemasters tell them what happens.

While it is one of the first games that wizard children are taught, many vampires have played it by instinct:

2. *Sesame Street* [https://en.wikipedia.org/wiki/Sesame_Street]'s skits
3. Shlomi Fish's screenplays [https://www.shlomifish.org/humour/stories/]
4. Entertaining online chat logs [https://www.shlomifish.org/humour/fortunes/sharp-perl.html]

The game can often be phrased like:

- 1 × 2 core concepts:
  1. Elohim
  2. "Jew" - the word is milliards-years-old, and was associated with the "yehudim" only relatively recently.
- 3 × 2 concepts ("time, soul, network, mind, love, knowledge"??)

Instances of "the game" may be layered, nested, or even circular / self-referential.

---

**Vampires in my stories**

The terminology for "vampires" in my stories [https://buffyfanfiction.fandom.com/wiki/Selinaverse#Vampires_in_the_Rindolfverse] is different.
Sample session of "the game"

One day, Mr. Linea [https://en.wikipedia.org/wiki/La_Linea_%28TV_series%29] takes a break from walking along his line, and posts a comedic story that takes place in an absurd 3D1T universe he conceived called "The Selinaverse", on his blog. However, his long-time associate "/bin/true" [https://en.wikipedia.org/wiki/True_and_false_(commands)] v2.0 "The Strong AI Edition" claims he came up with The Selinaverse first.

As the two argue in the blog post's comments, Discord (from My Little Pony) [https://mlp.fandom.com/wiki/Discord] notes that "Advanced Selinaverse Geeks" has been a popular fantasy role-playing games' franchise in Equestria [https://mlp.fandom.com/wiki/Equestria] for years.

The three go to judge Fluttershy (from My Little Pony) [http://shlomifishswiki.branchable.com/Fluttershy__44___Princess_of_Princesses__44___head_of_the_secret_cabal_leadership_of_the_Mossad__44___the_already_top_secret_intelligence_agency_of_the_Zionist_conspiracy/] who sighs and invites them for lunch. She opens a gateway to Rabin Square [https://en.wikipedia.org/wiki/Rabin_Square] in the Tel Aviv of the Selinaverse (yes! The same universe that the plaintiffs are arguing about), they agree on a restaurant, and order food.

While they wait for their order to arrive, Fluttershy explains that copyrights' battles are rarely constructive [https://www.shlomifish.org/philosophy/culture/my-real-person-fan-fiction/] and that they should just share the Selinaverse. The plaintiffs agree, drop the case, and discuss ideas they had in mind for the Selinaverse. However, while they wait for the desserts to arrive, Discord suggests they write and record a parodical courtcase as a spin-off franchise. The others agree.

After they record the pilot episode of "The copyrights' battle for the Selinaverse" and publicise it on their blogs and social media, it proves to be popular and profitable [https://www.shlomifish.org/philosophy/computers/web/models-for-commerce/]. Thus, the quartet donate part of the profits to charities (while giving them publicity [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/]), and decide to go to a vacation in the Selinaverse's Caribbean Islands, to calculate their next steps.

However, after checking into their hotel, they meet Marilyn Monroe [https://www.shlomifish.org/humour/image-macros/indiv-nodes/not_know_marilyn_monroe.xhtml] in the lobby (who, for the sake of this story, is alive, kicking, and kicking ass [https://www.shlomifish.org/humour/image-macros/indiv-nodes/wandless_emma_watson.xhtml]). After being a little star-struck and 'geeking out', they decide to play some games together.

They play ball games, board/card games, and League of Legends [https://leagueoflegends.fandom.com/wiki/League_of_Legends_Wiki]. Then they decide to play "The game" with the classic, possibly cliché, campaign of the Muppeteers in 1969 with Fluttershy and Monroe as gamemasters/arbiter, thus starting the cycle again.

Yes, it is fanfiction, crossover, parody, Real Person Fan Fiction (RPFs), circularly referential; good stuff.

Now, if the players are playful, and the gamemasters are jerks we can imagine stuff like:

1. Arnold Schwarzenegger convinces a U.S. military combat unit to storm Washington D. C. with him in order to legalise/decriminalise commercial fan-art, only to get the red carpet, a hero's welcome, and a personal invitation from the U.S. president to host a press conference.
2. Richard Stallman writes a script to broadcast the Muppeteers’ screenplays to all ~65,536 hosts in the nascent ARPANET [https://en.wikipedia.org/wiki/ARPANET], only to get a visit from the director of the NSA, who informs him that the Muppeteers’ screenplays' GitHub [https://en.wikipedia.org/wiki/GitHub] repository has exceeded 10 million GitHub stars (= "likes") and a million forks.

3. Jim Henson travels to Los Angeles to pitch the Muppets franchise to Hollywood executives, only to see *The Muppet Show* being broadcast on the moon, on the way.

In *TheGame™ of Fantastecha™*, The Three Muppeteers all started as law-abiding men of great integrity, who were playful mostly only when joking or doing make-believe. Furthermore, not only were the gamemasters jerks, but they were - to use the technical term - fuckers!

"Hackers" vs. "Fuckers"

The verbs "to hack" and "to fuck" were present in non-terrestrial English dictionaries for milliards of years with many of their contemporary meanings. Reference: "What is hacking?" [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/individuals/hacking_and_amateur__vs__conformism_and_professional.xhtml] (= "rule bending", "being resourceful", "thinking outside the box").

TheCodex™ defines "hacker" as a player character in *TheGame™ of Fantastecha™*. It also defines "fuckers" as the race of organisms who are the players and gamemasters who play "*TheGame™ of Fantastecha™*" in Meta-Fantastecha™.

<td>Certainly not perfect.</td>
</tr>
</tbody>
</table>

In order to keep *TheGame™* interesting, the fuckers promise that they will keep introducing new problems and challenges for us hackers (and their players) to overcome.

For example, while NASA astronauts did initially use pencils in space [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/individuals/hacking_and_amateur__vs__conformism_and_professional.xhtml] (just like the Soviet cosmonauts), the gamemasters preferred space-friendly pens to be developed (within budget). Moreover, faster-than-light ("FTL") travel is possible given one can cross gateways to planets many lightyears away in a matter of seconds. However, light speed as an upper bound, is a useful constraint that, after it was upheld in certain contexts (e.g.: micro-electronics), made technology better designed.

So we will not be able to rest on our laurels, even if we wanted to (which I personally do not want to [https://www.shlomifish.org/humour/Muppets-Show-TNI/Harry-Potter.html#harry_and_hermione_s_mission]).
Given how cool fuckers are, and how great Fantastecha™ and the Shlomifverse are, I decided to make them honorary hackers: Shlomifverse Fucker #0 [https://www.flickr.com/photos/shlomif/8598361516/in/album-72157633111982891/].

My favourite child

To quote TheCodex™ of TheGame™ of Fantastecha™:

A vampire can only be slain by another vampire, except for the last standing vampire who will be slain by his/her favourite child.

My favourite child is Christina Grimmie [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/chris-grimmie/]

I believe and hope that my recent spell of creativity and inspiration is due to me reviving her in my mind (and effectively conceiving her). See latest hacks.

Note: to further this cause, I hereby request that up to 95% of the past and future donations to me (whether of money, love points, experience points, mana, or whatever, except perhaps those of physical traits and parameters [https://twitter.com/shlomif/status/1571008285326835713]) will be transferred to her.

TheGame™ of Fantastecha™

TheGame™ of Fantastecha™ is a derivative of "the game".

Its rule book is common knowledge among wizards, but hidden from vampires:

- 7 × 2 guidelines of the realm of wizards.
- 9 × 2 guidelines of the realm of vampires.

( See the Middle Earth's 20 "Rings of Power" [http://tolkiengateway.net/wiki/Rings_of_Power] meme. )

For a vampire to become a wizard he or she should show that the gamemasters violated all 17 out of the 18 guidelines, except for the last: “For each and every hacker X: neither X’s soul, nor X’s mind, nor their union can ever perish.”.

The Orcs:

The orcs (or sometimes calling themselves "the Bajorans [https://memory-alpha.fandom.com/wiki/Bajoran]") were agents of the devils who gave the organisms choices and their outcomes (often based on dice rolls).

Slayer, Watcher, Whicher

The slayer in the trio is the actual "false prophet" who sees the "real world" as magic-less and mutated. (e.g. Saladin’s Yusuf Ibn Ayyub [http://shlomifishwiki.branchable.com/Saladin_Style/]).
The whicher (aka "the witch" / "the witcher") is a presumably fictional character whose job is to provide ideas and choices into their slayer’s mind. In my case it was Rindolf [https://www.shlomifish.org/me/rindolf/]. In Saladin’s case, it may have been Aladdin [https://en.wikipedia.org/wiki/Aladdin].

The watcher is a true prophet, who monitors the slayer’s thoughts and guides them. He or she also often acts as a project manager. In Saladin’s case it was Maimonides / "Rambam" [https://en.wikipedia.org/wiki/Maimonides] who was a famous amateur philosopher / creator / entertainer and also acted as Yusuf’s personal physician. Note that it took a long time for Yusuf to be aware of this fact.

In my case, my watcher from ~1989 until ~1997 was Melissa Joan Hart (MJH) who then transferred the lead role to the 1990-born Emma Watson [https://www.shlomifish.org/meta/nav-blocks.blocks/#harry_potter_nav_block]. Confusingly, they both had acclaimed roles playing witches.

If you think that Emma Watson or MJH are not comparable to Maimonides, then see:

- “If Botticelli were alive today he’d be working for Vogue.” — Peter Ustinov [https://en.wikiquote.org/wiki/Peter_Ustinov]
- “If Ayn Rand was born in the 1990s, she would be Christina Grimmie.” [https://www.shlomifish.org/humour/image-macros/indiv-nodes/if_ayn_rand_was_born_in_the_1990s.xhtml]

"Hell hole":

A person born in a hell hole started his/her life as a false prophet. If either parent was a true prophet, then they did everything in their power for their children to be born outside of a hell hole. As a result, false prophets were usually born to two false prophet parents.

After the false prophet "hacker monarch" was slain by a foreign false prophet, the non-capital outskirts of his birthplace region, stopped being a hellhole. One more time and the mystical capital was liberated.

When a liberation happened, the universe was forked into a parent and a child universes.

Female vampires, above puberty, preferred to mate with any of the local post-puberty male vampires based on their competence points. Their echoes gave birth to boy+girl twin vampires (where one of them was often sent forward in time). Often one of the children ended up slaying either or both parents. Moreover, parent vampires sometimes mated with their vampire biological children.

If a vampire wasn't slain before they hit puberty, then he/she endured more hardships such as being imprisoned [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/#fox-in-the-hens-coop] (in a psychiatric ward/etc.). I think puberty is 12 y.o. for women, and 13 y.o. for men.

"Ziyoonism":

"Ziyoonism" is non-coincidentally cognate with "Ziyun", the Hebrew word for a 4th base [https://explainxkcd.com/wiki/index.php/540:_Base_System] "fuck". It was a process by which the Satans tried
to convince false prophets men and women to relocate to an active hellhole for giving birth there (e.g. because the current hell hole was plugged). It was not limited to Israel/Palestine or to people identifying themselves as Jews.

The Rav Ovadia Yosef [https://en.wikipedia.org/wiki/Ovadia_Yosef] is a true prophet Jew who has a policy of blessing anyone as a Jew. He also has yet to answer 'no' to the question "is [insert entity here] a pure Jew?". Note that the word "rav", which means "great" in archaic Hebrew, means both "proliferous" and "argumentative" in Modern Hebrew. Let everyone in

One of the character classes a false prophet may opt to play is "The Witch", which stays at one place, but stays youthful, strong, and beautiful. One such was "The Witch of Harrow" who ended up establishing Harrow School [https://en.wikipedia.org/wiki/Harrow_School] which accepted both true prophets and false prophets as students. She ended up becoming a Terminator in Ramat Aviv Gimel erasing her unpleasant memories as a past "slut" and eventually making her house "The Amber" [https://www.shlomifish.org/humour/Selina-Mandrake/indiv-nodes/selinas-18s-birthday-party.xhtml] and getting herself terminated by a different Terminator.

As a false prophet child, my template was relocated [https://www.shlomifish.org/meta/FAQ/where_are_you_from.xhtml] three times before he was 6, despite common wisdom that one should not relocate young children. This was probably due to the effect of The Muppet Show and other television series on the Terran hellholes and my parents' wishes to have more children.

### History Lesson: The Muppeteers

#### The Early Muppeters: Rockville, Maryland, 1969

While The Muppets Franchise [https://en.wikipedia.org/wiki/The_Muppets] has been a labour of love by many false prophets and true prophets, by 1969, it was accepted that there were three head Muppeters (pun intended with "The Three Musketeers" [https://en.wikipedia.org/wiki/The_Three_Musketeers]), all false prophets:

1. **Arnold Alois "Arnie" Schwarzenegger** [https://www.shlomifish.org/meta/nav-blocks/blocks/#self_ref_nav_block] was a professional athlete and a self-described amateur/hobbyist philosopher and comedian.

   As an assistant kindergartener (Reference [https://en.wikipedia.org/wiki/Kindergarten_Cop]), Schwarzenegger pushed his true prophet pupils to unnatural athletic and academic extremes by being a pedantic critic [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/hollywood_screenplay_format.xhtml]. E.g.: even though they painted with Crayola crayons [https://en.wikipedia.org/wiki/Crayola] works that rivaled classical oil paintings, he was still able to find many legitimate faults in them. The true-prophet children appreciated his input, but he believed they and their parents kept becoming offended and complaining.

2. **Richard Matthew "RMS" Stallman** [https://en.wikipedia.org/wiki/Richard_Stallman] was an overly pedantic "nazi" critic too, but unathletic, unkempt, a maths/software wiz, and a bookworm brainiac. Given he was an atrocious slacker, none of his false-prophet friends understood how he got his Ph.D. (and from MIT no less). He was unaware he had a Ph.D.

   Despite being of (secular) Jewish descent, RMS was a pluralist [https://www.shlomifish.org/meta/FAQ/religious_belief.xhtml] ("rich"-ard)

Let everyone in A similar strategy was employed by the USA ("give me your tired, your poor, your huddled masses") [https://www.independentsentinel.com/the-truth-behind-give-me-your-tired-your-poor-your-huddled-masses/], by Christianity, and by Islam. I also suspect Saladin's military accepted many faux Kurds.
Jim Henson - "Jim" means "laborious" (not unlike "gym") and he did almost everything 'hard': worked, socialised, learned, taught, entertained, volunteered, and exercised.

"Jim" is also cognate with "jinn" (or "genie") and he had a penchant for stage magic and video editing.

Henson was the leader, and had the veto.

One day in 1969, the three lamented the fact that the late 1960's anglophone terrestrial television has become too paranoid, and so decided that they will act, produce, and distribute, a gratis, public domain, and non-commercial television show for children, called Sesame Street. Part of the reason for keeping it free was that they intended it to sport a lot of fan-fiction, RPF, fan-art and song covers (which they believed were legally problematic) and part of it was due to an altruistic spirit of sharing.

They expected Sesame Street's popularity to be mostly confined to their base-town, Rockville, Maryland, but thought that "They who saved one soul has saved the world Entire".

Little did they realise that Sesame Street and its international spinoff The Muppet Show were remastered and widely televised. Moreover, despite being ostensibly public domain, it was an incredibly profitable and influential franchise.

Here's another fun fact: the Muppeteers have left the premises of their base-town, Rockville, very rarely.

**Dispelling Ziyoonism and The Muppeteers**

By 1982, the previously mighty Ziyoonist empire was reduced to one remaining physical hellhole: Rockville, Maryland. Its almost undisputed master vampire was Jim Henson, head of The Muppeteers. All the remaining post-puberty vampires (including Queen Elizabeth II and Pope John Paul II) relocated to Rockville to become muppeteers and have their echoes mate with echoes of ones. The pre-pubecent ones were physically scattered around the globe to delay slaying one another and the Muppeteers.

The NSA had moved its headquarters to Fort Meade, which is about 40 kilometres away from Rockville. Rockville also housed the National Institutes of Health (NIH).

Joss Whedon asked the orcs "what's next?" and they settled on using the international postal service to connect between the Muppeteers and "dispellers" outside Rockville. ("You can control television and computer networks but not the Postal service.")

These dispellers were:
1. False prophets.

2. Female.

3. Below 12 years old (so below puberty).

4. Above 4 years old or 5 years old or so, so false prophets can credibly believe they can read and write coherently.

5. Located at the USA or the British Isles.

Some dispellers I can readily recall are:

2. Melissa Joan Hart (MJH) [https://en.wikipedia.org/wiki/Melissa_Joan_Hart] - the 1976 born "computer wiz girl", who used a dot matrix printer. I think she was living in Florida at the time.

Somewhat selfish, rash, hastey, opportunistic, and brave.

(References: Ambassador Hart [https://www.shlomifish.org/humour/fortunes/show.cgi?id=shlomif-story-of-Gul-Dukat-in-the-Selinaverse] ; "It doesn't take a witch to fix this computer…" [https://www.shlomifish.org/humour/fortunes/show.cgi?id=shlomif-story-it-doesnt-take-a-witch-to-fix-this-computer])

( Reference #1 [https://www.shlomifish.org/humour/fortunes/show.cgi?id=clarissa-darling] )

4. Sarah Michelle Gellar (SMG) [https://www.shlomifish.org/meta/FAQ/biggest_celeb_crush.xhtml] - as a 1977-born Jewish girl, Sarah believed that her father abandoned her mother and herself, who were both living in relative poverty in Manhattan. She spent just enough time on her scholastic responsibilities to will have graduated from high school and get her mother's echo off her back, and spent the rest of her time happily donating [https://www.shlomifish.org/humour/fortunes/show.cgi?id=smg-about-giving-back-money-and-time] love, time, and money to others and herself.

Kind, yet domineering and "pushy", and believes planning and having backup plans [https://www.shlomifish.org/humour/Summerschool-at-the-NSA/indiv-nodes/we_are_scheming.xhtml] are good ideas.

5. Cher [ Horowitz? ] [https://www.shlomifish.org/humour/Terminator/Liberation/indiv-nodes/hamlet-parody-Cher-parody.xhtml] - born 1971-1978. Hailing from Beverly Hills, Cher was a Jewish American Princess [https://tvtropes.org/pmwiki/pmwiki.php/Main/JewishAmericanPrincess], and a self-conscious and "damn proud of it" one. Only with a heart of gold. She spent large amounts of time [and significant amounts of money], helping her friends or trying to make them happier / more entertained

Nicknamed "Sel", Selina had a penchant for selling fun services and products to people she knew or just met, often after haggling [https://www.youtube.com/watch?v=8iQ?nr8xEPo] (and often to negative prices).

( Reference [https://buffyfanfiction.fandom.com/wiki/Selina_Mandrake] )

7. **Buffy** [*] [https://www.shlomifish.org/meta/nav-blocks/blocks/#buffy_sect] - the real Buffy was a wizard-born girl or woman, who was chosen to slay the "last standing vampire" of the "Provincial Earth" era. I think she was physically relocated to Maryland, to simplify logistics.

( I think they were all awesome, and I have tried to emulate them all. )

You'd think the Postal service would use regular Air Mail to connect them and The Muppeteers to each and every one. Hah! Not on your life! They used supersonic military jet planes, each carrying Xeroxed copies, dropped from the air and delivered at the doorsteps. "Only the best for the baddest." ( Reference [https://www.shlomifish.org/humour/So-Who-The-Hell-Is-Qoheleth/ongoing-text.html] ). The recipients were startled by the aeroplanes' thuds at first, but soon associated the incoming jets with incoming letters. 

Jet logistics

I also suspect that, in order to prevent the underage vampires from hitting puberty, there was a "1 week <=> 2 hours" time slowdown.

Corresponding with the girls, The Muppeteers soon realised that their crudely produced shows and films were remastered and broadcast internationally ( and beyond! [https://www.shlomifish.org/humour/image-macros/indiv-nodes/mighty_klingon_warriors.xhtml] ). Jim Henson, Arnold Schwarzenegger, and Richard Stallman ( RMS ), who were the three core Muppeteers each understood that the other two were trying to advocate **Commercial Real Person Fan Fiction (RPFs)**, crossovers and parodies [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/] (which were tolerated and encouraged in the non terrestrial universe), as well. Moreover, they all had antagonism toward the terrestrial "Hollywood-blessed screenplay format" [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/hollywood_screenplay_format.xhtml] (which was neither popular nor mandated). They also realised they were rich, famous, and that their terrestrial "real world"s were lies.

The dispellers understood the different strategies of each other and the Muppeteers. Eventually, the dispellers all wrote their own variation of a parodical, fanficcy, screenplay titled **Buffy the Vampire Slayer (BtVS)** [https://www.shlomifish.org/meta/nav-blocks/blocks/#buffy_sect]. Samantha Smith's copy arrived first because she wrote it by hand and due to Maine's relative proximity to Rockville. It described an underage girl who happily slew demons and made them her friends. It also sported this power quote:

> I just slew three mighty Vulcan [https://memory-alpha.fandom.com/wiki/Vulcan] vampire warriors who have watched Sesame Street. This decade seems-to-be shaping up very nicely so far.

( Reference [https://www.shlomifish.org/humour/Selina-Mandrake/indiv-nodes/selina-and-the-three.xhtml] )

The adult Muppeteers and other post-puberty false prophets read the screenplay, smiled/laughed/cried/etc. and had it directed, produced, and broadcast. The underage false prophet girls (including the dispellers, the toddler ones, and those living in non-anglophone countries) and underage false prophet boys watched it and ascended as well [including my slayer template who was ~5 years old at the time].

The two mighty superpowers that Samantha Smith ( &co. ) slew as a child were not the USSR and the USA, but Ziyoonism and Jim Henson/The Muppeteers!
The 6 chocolate hearts

I just bought 6 chocolate hearts [ wrapped with golden wrappings. ] for 5 sheqels. I have 6 leftover sheqels. I intend to pair the hearts and the sheqels, and utilise the pairs like so:

1. Melissa Joan Hart (MJH) - consume it - eat it, and maybe throw away the remains.
2. Clarissa Darling - auction it.
3. Cher [ Horowitz? ] - give it to a friend or a stranger, unconditionally.
4. Sarah Michelle Gellar (SMG) - give it to my favourite "daughter": protegée, successor, and role model. In my case, she is Christina Grimmie [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/chris-grimmie/].
5. Selina Mandrake -
   I wish to sell the pair to Christina Grimmie for a negotiable price. (With much fanfare.)
6. Samantha Smith - decide what to do with it later.

The Terran Terminators: Rematch

Anyway, the devils and the orcs approached the men and women who just reached enlightenment, and offered them a choice: they will spend the summer enlightened and together having fun and using their magical powers. At its end, they can opt to reset their memory banks almost completely and become false prophets again, this time called "Terran Terminators" or continue as enlightened true prophets.

Several newly-ascended true prophets opted out, after the summer, from various reasons, mostly because they had children or enjoyed their newfound powers. E.g: Chuck Norris [https://www.shlomifish.org/humour/bits/facts/Chuck-Norris/] or Omer Zak [https://zak.co.il/] or Queen Elizabeth II [https://en.wikipedia.org/wiki/Elizabeth_II] or "Weird Al" Yankovic [https://en.wikipedia.org/wiki/%22Weird_Al%22_Yankovic]. They still often "got sucked" into TheGame™. I shall call them "the dropouts".

The ex-slayers spent the summer there creating many crossover memes, stories, hacks, and franchises, or otherwise enjoying magic, life, love/etc. However, when they met to decide, some of them were still petty / jealous / cruel / "unfaithful" / immature / etc. Some had years, or decades (or centuries) of history they wanted to get rid of. So many decided to continue as terminators, possibly by peer pressure.

Like the story of the Celtic trio’s trip to Damascus [https://www.shlomifish.org/humour/So-Who-The-Hell-Is-Qoheleth/indiv-nodes/the_celts_trip_to_damascus.xhtml] some had a policy of not resisting rapekisses or rapehugs during the first few weeks, but there were much less romance and intimacy.

The youngest dropout was the circa 1977/1978-born Selina Mandrake. She decided to continue as a true prophet since "it was the best summer ever" for her, and she may have been scared of losing her memories.

It was not all roses. See "hospitalised in a closed psychiatric ward” [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/indiv-nodes/fox-in-the-hens-coop.xhtml].

I also suspect the vampire dispellers and Muppeteers were made to believe that the real Buffy was killed, not unlike the terrestrial assassination of Christina Grimmie in 2016.
Becoming terminators was advantageous because the devils-and-Orcs promised they would reveal TheOneTruth™ [https://twitter.com/shlomif/status/1403966571215740929] and TheCodex™ to the last one standing, but more importantly, all terminators will harbour many new franchises, plots and memes, and creations, and inspire new technologies. Part of their motivation for becoming terran terminators was that we will "terminate" one another more quickly.

Note that the devils might have forked the Selinaverse universe one last time, including the souls of all wizards, up to and including Selina Mandrake and Jim Henson, and excluding the Terran terminators. I will refer to the forked universe as "The Shlomifverse".

In my case, my mind was reset under the guise of fellow children mocking my use of English [https://www.shlomifish.org/meta/FAQ/how_did_you_learn_english.xhtml]. For many others, it was a concussion from a fall. Thing is: my first name means "Shalom-ful" [https://www.shlomifish.org/meta/FAQ/your_name.xhtml] in Hebrew. The devils promised that my body will remain complete and whole.

These people, starting as false prophets, became known as The Terran Terminators. After relinquishing their fears, they have ascended so to speak (see https://buffy.fandom.com/wiki/Ascension ). Do note that this ascension was in a way a "submission" or "surrendering" to a superior "vampire" or protege [https://github.com/shlomif/shlomif-tech-diary/blob/master/my-candidates-for-terran-leadership.asciidoc#user-content-slain-by-a-vampire].

A Surprise

According to the rules of Fantastecha™:

1. There must be a noble cause, however insignificant, that a hacker is willing to die for.
2. For each and every hacker X: neither X's soul, nor X's mind, nor their union can ever perish.
3. A hacker may be required or may opt to change his/her "form": name (and possibly mission in life).

As a result, new vampire soul+mind combos were allocated and started their lives with the forms of the non-dropout templates. The latter had to change their names, and became bona-fide true prophets. Whether relieved or disappointed, they were still alive.

So my soul+mind were effectively created in September 1983, at the first day of the 1st grade of elementary school with the body of a 6 years old. Richard Stallman and Arnold Schwarzenegger started their terminators' lives as grown-ups.

Causes Shlomi Fish will die for

I, Shlomi "Rindolf" Fish [https://www.shlomifish.org/me/contact-me/], am willing to die if all of these will happen:

1. In order to save Planet Earth of the Selinaverse or the Shlomifverse.
2. In order to make sure Christina Grimmie [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/chris-grimmie/] is alive, healthy, conscious, kicking, and being awesome.
3. In order to save shlomifish.org [https://www.shlomifish.org/] and its build dependencies from being permanently destroyed or lost.

List

One of the first to ascend was Arnold Schwarzenegger [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/bad_acting_arnie.xhtml].
Other notable Terran terminators might include:

1. Sarah Michelle Gellar (SMG) [https://www.shlomifish.org/meta/FAQ/biggest_celeb_crush.xhtml] - "Summerschool at the NSA" [https://www.shlomifish.org/humour/fortunes/show.cgi?id=smg-next-film] starring her may have been a thing.

2. Summer Glau [https://www.shlomifish.org/meta/nav-blocks/blockes/#xkcd_sect] - my "Summerschool at the NSA" film [https://www.shlomifish.org/humour/Summerschool-at-the-NSA/] likely earned her the Oscar and may have been an inadversarial reboot.

3. Likely Melissa Joan Hart (MJH) (who ascended before CEIA [https://en.wikipedia.org/wiki/Clarissa_Explains_It_All] and as a result was the "beta" female [https://www.shlomifish.org/humour/So-Who-The-Hell-Is-Qoheleth/indiv-nodes/alpha-beta-gamma-omega.xhtml] during the Web 1.0 period [https://websitebuilders.com/how-to/glossary/web1/] when SMG was "queen of the Web" and the "alpha female")

4. Likely Samantha Smith herself

11. Likely Richard Stallman ("RMS")

16. Likely Meredith Brooks [https://en.wikipedia.org/wiki/Meredith_Brooks]

17. Likely Steve from Smash Mouth [https://en.wikipedia.org/wiki/Smash_Mouth]

19. Likely Pope John Paul II [https://en.wikipedia.org/wiki/Pope_John_Paul_II] and Pope Benedict XVI [https://www.shlomifish.org/philosophy/philosophy/putting-all-cards-on-the-table-2013/indiv-nodes/departing_pope_about_twitter.xhtml]. They both had to retire as popes following their ascensions/Catharses due to the Catholic Church's policy of its vampire popes retiring as soon as they ascend.

20. Likely Celine Dion [https://www.youtube.com/watch?v=T6wbugWrfLU]

22. Likely Felicia Day [https://en.wikipedia.org/wiki/Felicia_Day] -
25. Likely The real Clarissa Darling
26. My middle sister
27. Some childhood friends of mine.
28. Likely Mom Cimorelli [https://twitter.com/shlomif/status/1477303776495210498]
29. Taylor Swift [https://www.shlomifish.org/humour/bits/facts/Taylor-Swift/] - born in 989 AD, her body had a quirk of having immense strength without the need to exercise, and without having any big muscles. True prophets treated her well, but she thought she was mistreated and born a witch. At 1982 she wanted to forget her past, and start anew as a terminator, whom the satans promised would have average starting strength but could retain her strength, dexterity, flexibility, agility, etc. without too much exercise (like true prophets and unlike many false prophets). Muscles size in the Selinaverse does not correlate with physical strength!

Genetically speaking, Taylor and Saladin parented a son who was Genghis Khan's direct-male-ancestor.

Nevertheless, I still wouldn't pit the petite and frail-looking Summer Glau in an MMA [https://en.wikipedia.org/wiki/Mixed_martial_arts] match against Worf [https://memory-alpha.fandom.com/wiki/Worf] or even against Ronda Rousey [https://en.wikipedia.org/wiki/Ronda_Rousey]. However, do note that Glau has won most such fights against both Chuck Norris, and Bruce Lee, who are both alive and in their prime. She still drops out of MMA tournaments early. [https://www.shlomifish.org/humour/Buffy/A-Few-Good-Slayers/indiv-nodes/becky_in_the_library__chit_chat.xhtml]. Life is a circular graph: Reference

Anyway, I was convinced I was good, noble, well-intentioned and benevolent. I refused to permanently consider the opposite! Even if it meant the whole media of mine and "mainstream" terrestrial science were wrong. Moreover, similarly to Jesus, I have been willing to suffer a little more if it meant that future generations suffer much less.

I also preferred to err on naivety than on cynicism, and encouraged everyone and everything to improve [https://www.shlomifish.org/humour/stories/#intro].

It also helped that I have been self-centred, narcissistic, and megalomaniacal.

**Why my template made me a terran terminator**

I suspect Shlomi Fish decided to become a terran terminator from the following reasons:

- Angry at himself for being a slut.
- He was frustrated that his bad predictions didn't materialise, either because they were unfounded, or because they were taken as constructive, precautious, advice [https://www.youtube.com/watch?v=3gxyvMi6yekg&lc=UgzNA_q8Po6cXM0cN_14AaABAa].

Like a timid little fish exploring the Ocean [https://twitter.com/shlomifish/status/1539990565873393665] he was afraid of deviations from the status quo. I think he said 'I'm gonna hate this day! [insert reason here]' several times.

- Selina, who is younger than him, stubbornly insisted that she'll be a dropout. As a result, that universe could not be named after him/me.
Who created time

A popular theory is that Benjamin Sisko [https://memory-alpha.fandom.com/wiki/Benjamin_Sisko] created time in the 1990s by explaining it to the Prophets of the wormhole [https://memory-alpha.fandom.com/wiki/Prophet], Quark and Brunt made it part of their bestselling ebook/paperbook "Distilled Wisdom of the Prophets for Profits" which they sent 'back in time' out of mischief.

A theory I made up now is that The alicorn pony Princess Celestia [https://mlp.fandom.com/wiki/Princess_Celestia] wrote a parodical but educational book about science, and Discord [https://mlp.fandom.com/wiki/Discord] sent it back.

In the multiverse of imagination, there are many strange loops and "plagiarism" is common and encouraged.

Boredom and Lethargy:

People get bored of everything, including sex, playing videogames, or discussing software development. They also need change ['lethargy']. But boredom and lethargy are powerful motivators - for false prophets and true prophets alike.

There are many true stories of stay-at-home "losers" who picked a hobby out of boredom, and became creative superstars. Many predate the Internet, e.g.: Jules Verne [https://en.wikipedia.org/wiki/Jules_Verne], and E. Nesbit [https://en.wikipedia.org/wiki/E._Nesbit].

Also see: "Why boredom is good for you?" [https://www.youtube.com/watch?v=LKPwKFigF8U].

Ramat Aviv Gimel

Before having our memories reset, my friend Amit, I, and several other future terminators carried with us the "nazi"-ness value:

The "nazi"-ness value:

The Golden Rule [https://mygeekwisdom.com/2011/09/12/be-excellent-to-each-other/] implies sincerely criticising others even if it hurts their feelings, gets you in trouble, and even if you do not practice what you preach (see Ad hominem Tu quoque [https://en.wikipedia.org/wiki/Tu_quoque])

See "Encourage criticism and try to get offended" [http://shlomifishswiki.branchable.com/Encourage_criticism_and_try_to_get_offended/]. Having terminated Arnold Schwarzenegger, Melissa Joan Hart (MJH), and Samantha Smith, the two of us were afterward kept in the same elementary school classroom with few other false prophets. This is given the "Age of the Terran Terminators" was supposed to last 40 years. Richard Stallman and Clarissa Darling likely were terminated shortly afterwards.

Many Terran Terminators or their friends (and proxies) were relocated by the true prophets administration to Ramat Aviv Gimel [https://en.wikipedia.org/wiki/Ramat_Aviv_Gimel], which was chosen because it was north of the Yarkon River [https://en.wikipedia.org/wiki/Yarkon_River] and so outside the historical Gush Dan [https://en.wikipedia.org/wiki/Gush_Dan], which remained a hellhole for longer, and yet close enough to Tel Aviv, the "it city" of Israel. It was also close enough to the sea, to accommodate for terminators of sea-farers descent.

Placing them together was useful for cross-pollination, getting terminated, and terminating.
By 1989-1990, when Melissa Joan Hart (MJH) became my project manager, and Rindolf [https://www.shlomifish.org/me/rindolf/] my whicher, almost all observers believed either Amit or I were likely going to terminate all other terminators. I suspect they were right. Amit (= "colleague" in modern Hebrew or "friend" in archaic Hebrew) was more sociable and outgoing at first, but I suspect I terminated him during the 7th#9th grade, before he and his family relocated to Neve Avivim [https://en.wikipedia.org/wiki/Neve_Avivim].

Do note that despite the geek stereotype, I haven't been shy, just prone to stuttering, bad diction, and awkwardness.

I joked that, similar to H L Mencken being "The Sage of Baltimore" [https://hoover.blogs.archives.gov/2019/10/16/h-l-mencken-sage-of-baltimore/], I was "The Sage of Ramat Aviv Gimel".

My terminating-career was boosted after I set up a static personal website [https://www.shlomifish.org/meta/FAQ/site_history.xhtml] which became www.shlomifish.org [https://www.shlomifish.org/]. The devils promised it will be displayed verbatim among other terminators. Various Internet people told me I should delete offensive content [https://www.shlomifish.org/meta/FAQ/#please_delete_offensive_stuff] or convert the service to use PHP/Ruby-on-Rails/etc. [https://github.com/shlomif/shlomif-tech-diary/blob/master/static-site-generators--despair.md#facing-some-criticism], but I didn’t heed them. They were likely mirages of the devils and the orcs.

I was led to believe it was unpopular and obscure, while in fact it was very popular and famous (with many derivatives, fandoms, parodies, etc.) outside my mind’s hellhole. I was also often made to think I had many haters, which wasn’t true.

Do note that "Encourage criticism and try to get offended" was not the last word:

2. "Don't try to please everyone" ; "colour of the bikeshed" ; etc. [http://shlomifishswiki.branchable.com/Never_Try_to_Please_Everyone/]

**History of Earth:**

**Ancient History of Earth:**

When Earth became the last frontier of Ziyoonism, it was negotiated that there would be:

- 1 pair of "Elohim" / "#####" and "Jehovah" / "###" (E, J; #,#).
- 3 pairs managing sanctuaries:
  1. Se'or (#####) and The Symbul (##### ##) [https://www.shlomifish.org/humour/Star-Trek/We-the-Living-Dead/ongoing-text.html] managing the Golan Heights or the 'Steppe' [https://en.wikipedia.org/wiki/Golan_Heights] (S, T; #,#).
  2. Alaska (L, K; #,#).
  3. Panama (M, N; #,#).
- 7 pairs of seas / Oceans - farers vampires: "The seven seas".
- 9 men and 9 women who started as land vampires.
The mystical capitals of all countries except Syria were splintered too.

An extra complication may have been that a liberator of a province must have originated from a different country.

Note that proto-Levantine was modern Hebrew (which was spoken by the English-speaking people over 6 million years ago [https://www.shlomifish.org/humour/Star-Trek/We-the-Living-Dead/indiv-nodes/Q_home_planet.xhtml]) and Modern English is also a product of TheGame™.

California (.ca.us) [https://en.wikipedia.org/wiki/California] became the 1st province to be liberated.

Jerusalem was the 1st [national] mystical centre to ascend when King Shlomo ("Solomon") [https://en.wikipedia.org/wiki/Solomon] wanted to be benevolent and "know the gods". David and his genetic sons were redhead, while Shlomo had black, curly hair. He became king by telling well-intentioned jokes and tall tales about David, and Shlomo's older siblings-in-pretence (e.g: "Amnon and Tamar" [https://en.wikipedia.org/wiki/Tamar_(daughter_of_David)] or "Avshalom" [https://en.wikipedia.org/wiki/Absalom]). Not unlike my fanfics/RPFs [https://www.shlomifish.org/humour/]. David and his sons agreed he would be a better king and crowned him, while remaining physically alive and loyally serving under Shlomo's reign, thus undergoing Catharsis [https://en.wikipedia.org/wiki/Catharsis] and liberating Jerusalem. Kai Winn

The first country to be completely liberated was Greece, which was a team effort of many false prophets and their players.

I contemplated that Damascus was finally liberated after the author of the scroll of "Qoheleth" (= Ecclesiastes) [https://en.wikipedia.org/wiki/Ecclesiastes], who was its "hacker king"/"master vampire" admitted inferiority [https://www.shlomifish.org/humour/So-Who-The-Hell-Is-Qoheleth/ongoing-text.html] to a trio of female Celtic travellers from Austria.

# World War II

I suspect Adolf Hitler and the other Third Reich Nazis were amateur entertainers / philosophers / comedians. They were only sadistic, murderous, authoritarian, and villainous in the collective awareness

Kai Winn Note that in the Selinaverse, Vedek Winn [https://memory-alpha.fandom.com/wiki/Winn_Adami] became a Kai by employing a similar strategy. The rule that you should not use the same trick twice is just a guideline: https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/#guidelines_as_dogma. Also note that:

1. She is noble.
2. She used to be anti-Federate but may have changed her mind since - and Bajor voted itself into the United Federation of Planets [https://memory-alpha.fandom.com/wiki/United_Federation_of_Planets] anyway.
3. Being a Kai is held in much less seriousness than being a Vedek [https://memory-alpha.fandom.com/wiki/Vedek].

of some vampires (including me and some of my ancestors). After they were slain (by Stalin?), Hitler&co were shocked by their remastered terrestrial version. However, they received part of the profits from that, and took it to their advantage.

Colonialism

Colonialism was some attempts by vampires to get slain:

1. Monty Python's Life of Brian - "What Have The Romans Ever Done For Us?" [https://www.youtube.com/watch?v=p-fRo5-p9hE]

The Christian Crusaders

The Christian crusaders (during Saladin's time/etc.) were not really malevolent or destructive - only perceived this way by the media ("in-betweens") of some vampires (including Saladin's slayer, Yusuf) - often 2nd-hand ones. Furthermore, given the circular-graph nature of melee fighting, many of the wizard crusaders could win over Yusuf in a 1-on-1 sword fight, but played along with the terrestrial version.

Liberating Africa

Given Africa was considered one big country by TheGame™, Necho II [https://en.wikipedia.org/wiki/Necho_II]'s expedition to encircle Africa had one slayer vampire from the Levant (e.g: Lebanon, Israel, or Damascus) on every ship, in order to try to liberate the African provinces. Not only that, but one ship ended up at the Americas.

Alexander the Great liberated Egypt itself.

Re "Dr. Livingstone, I presume" [https://en.wikipedia.org/wiki/David_Livingstone#Stanley_meeting], Livingstone was wizard-born, and acted as a watcher to some vampires' adventurers.

"The Schwartz is in us":

Re Spaceballs [https://spaceballs.fandom.com/wiki/Spaceballs:_The_Wiki]

I will hopefully fully admit defeat to Christina Grimmie and co [https://www.shlomifish.org/art/recommendations/music/online-artists/fan-pages/christina-grimmie/] soon.

Nevertheless 'the Schwartz' - both good and evil flows in all of us.

In this video [https://www.youtube.com/watch?v=EEa6jZv-Khc] a stray dog with Rabbies attacks a human toddler. Rabbies is a kind of possession/obsession, and friendly pets in the Selinaverse can talk.

I imagined a themed planet - "Planet of the Forgotten Realms [https://forgottenrealms.fandom.com/wiki/Main_Page]" - where many 2nd generation organisms take it far too seriously. Are they false prophets? Many soldiers or even civil employees on Earth exhibit similar symptoms.

And true prophets are not perfect. The trend of shy, needy, sensitive, and easily-hurt females continued with Tiffany Alvord and Fluttershy [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-
Tales--Queen-Amidala-vs-the-Klingon-Warriors-indiv-nodes/what-wayne-and-garth-think.xhtml]. Do note that:

1. They both shed some of that along the way.

2. I always loved them.

3. I have a tendency to depict them both as real badasses in my fics. (e.g: here [https://www.shlomifish.org/humour/Terminator/Liberation/indiv-nodes/hannah-using-a-tank.xhtml])

Recently, listening carefully to some songs made me cry, and that included some upbeat songs such as KHS & co’s "Lion King parodical medley" [https://www.youtube.com/watch?v=YtrFsjdeO5I]. Reportedly, many young-looking women who went to listen to Liszt [https://en.wikipedia.org/wiki/Franz_Liszt]’s concerts fainted from excitement (and I believe most of them were true prophets).

Cimorelli-the-band wrote a song titled 'Renegade' [https://www.youtube.com/watch?v=FktDDKNrWjk] motivated by suggestions they received as up-and-coming signed ("VEVO") artists.

**Objectivism-and-Mysticism:**

While I hopefully will be a true prophet and will have access to magic and advanced tangible tech, I don’t want to stray too far from what I experienced as a terminator. Balance between yin and yang.

I wish to live on a spherical planet with a 24 hours clock, and the Gregorian calendar [https://en.wikipedia.org/wiki/Gregorian_calendar]. However, there should be no known risk of environmental or astronomical calamities.

I wish to experience unique taste in every meal of freshly prepared food (maybe also fast food).

I wish to meet truly great hackers [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/]: award-winning creators and polymaths.

I wish mass duplication to be available.

**The Selinaverse vision** [https://www.shlomifish.org/philosophy/culture/multiverse-cosmology/why-the-so-called-real-world-makes-little-sense/#selinaverse_vision]

**The blurry line between elves and orcs:**

In *Summerschool at the NSA* [https://www.shlomifish.org/humour/Summerschool-at-the-NSA/] , I joke that:

```
SMG: We’ve got a lot of time for that. OK: it was 1997-1998ish, Buffy started airing and became a cult series. So, one day a group of yeshivah pupils from a local Chabad yeshivah arrived to the studios saying they have some numerological insights from the Jewish bible, about what will happen in Sunnydale next.
```

Were they elves or orcs?

We cannot stop even small children from imagining things - and elsewhere in Fantastecha™, there will be sucker/brave souls who will choose to start their life as false prophets. Furthermore, most good narratives feature one problem or more that need to be reconciled (Reference: Sesame Street: "Conflict" [https://www.youtube.com/watch?v=Gi3e-OUnavQ]).
Furthermore, I sided with Emma Watson that "your time is everybody’s time" rather than Melissa Joan Hart (MJH)’s liberal use of time wraps. This may have delayed my ascension/catharsis, but made me less ecstatic. Who was right?

"A resentful beggar" [https://www.shlomifish.org/humour/Summerschool-at-the-NSA/#the-resentful-beggar]:

A resentful beggar whose name I forgot, and who accused the people sitting on benches in Rabin Square of being misers, which prompted me to give him a 20 sheqel note and asking that we’ll converse in return.

After talking for a while, I decided to give him 50 more sheqels and he told me he believes I’ll get lucky because I was so generous. And a few weeks after that, I attended Olamot Con, and came up with the idea to write Summerschool at the NSA as a screenplay.

It was clearly a test (given my bank credentials and those of many large corporations are public knowledge).

Moreover, back in the 9th grade, I suffered from several clinical depressions, and eventually my guardian angels decided to send me ‘The Neo-Tech Cosmic Power Pincer #1’, which was false, but sounded more believable and provided a sharper contrast with my contemporary Israeli, Jewish, and mostly Tanakh idea system. Pincer #1

Thoughts about Sex:

While risking sounding discriminatory [https://www.shlomifish.org/meta/FAQ/are_you_a_sexist__are_you_a_feminist.xhtml], I suspect that often when a female vampire mated with a male vampire, she thought it was an elaborate night of “up-base” (= 4th base and below) sexual acts, while for him it was a temporary spell of arousal, or even "regular" pleasure, or at most a "rape-kiss" [https://www.shlomifish.org/humour/bits/true-stories/my-first-kiss/].

Re:

• Taylor Swift - "Red" [https://www.youtube.com/watch?v=Zlot0i3Zyk] - a song she wrote pre-catharsis, and I match her description.

• Sarah Bernhardt [https://en.wikipedia.org/wiki/Sarah_Bernhardt] - the daughter of a Jewish prostitute (WTF?) who believed her mother abandoned her. Became the hacker queen of Paris and after she was slain by Alisa "Rand" Rosenbaum or by Walt Disney, liberated it.

• Sarah Michelle Gellar (SMG) - believed pre-catharsis that her biological father divorced her mother.

• Alexandre Dumas pere [https://en.wikipedia.org/wiki/Alexandre_Dumas] - had 40 affairs.

• King Shlomo ["Solomon"] [https://en.wikipedia.org/wiki/Solomon] - had 1,000 wives.
Given most organisms wish to experience "pleasure" / "love" / happiness even if they "have 99 problems but a significant other ain’t one" [http://shlomifishswiki.branchable.com/99_Problems/], then love is unstoppable.

As an example, we can imagine a young girl to write a funny screenplay using GitHub [https://en.wikipedia.org/wiki/GitHub] or Google Docs which pits Emma Watson [https://www.shlomifish.org/humour/bits/facts/Emma-Watson/] vs. Kim Kardashian [https://en.wikipedia.org/wiki/Kim_Kardashian] on who gets to ride Princess Celestia [https://mlp.fandom.com/wiki/Princess_Celestia] next, with Darth Vader [https://en.wikipedia.org/wiki/Darth_Vader] and Haman [https://en.wikipedia.org/wiki/Haman] as two "evil", but mutually hating one another, arbiters. Might seem ridiculous, but if I didn't want entertainment in my life, then I'd go watch grass grow. It will be a legal and "ethical" minefield, but I'd bet it'd be easier to follow and more entertaining than Tolkien's "Lord of the Rings" [https://en.wikipedia.org/wiki/The_Lord_of_the_Rings] was even shortly after LotR was written.

( Reference #1 [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/] ; Reference #2 [https://www.shlomifish.org/humour/bits/Who-will-ride-Princess-Celestia/] )

That proverbial girl is making love to all these meme-generators!

This has several implications:

1. No one owns 100% of anyone else’s sex life or love life.

2. No one is a virgin.

3. Ages are irrelevant:
   - Mosheh: Relax! I married girls who were 40 times my junior or more and my own descendants, and retrospectively I can tell that many of them were more mature and rational than I was in most respects.
   - While in her 20s, Major Kira [https://www.shlomifish.org/humour/fortunes/show.cgi?id=shlomif-story-of-Gul-Dukat-in-the-Selinaverse] had a relationship with Vedek Bareil [https://memory-alpha.fandom.com/wiki/Bareil_Antos] who was/is over a million years old.
   - Moreover, Q2 [https://stexpanded.fandom.com/wiki/Q2], who was roughly 34 milliard years old when she assumed a human-like body, had relationships with much younger men. E.g: men in their 20s, who were less than a milliardth her age.
   - “Shlomi Fish’s FAQ - You feature sexy women and girls in your works. Are you a pervert?” [https://www.shlomifish.org/meta/FAQ/featuring_sexy_women_and_girls.xhtml]

4. Obi-Wan: I did, yes. Wow! And I thought my (one and only, hah!) girlfriend was bad. Do note, however that I kindof am attracted to the bitching type. One of my many kinks. While my friends are attracted to everything that moves, I see no reason to limit myself ( Reference [https://www.amazon.com/Best-Things-Anybody-Ever-Said/dp/0743235797/ref=sr_1_1_1] ).

5. Sex between two consenting true prophets often is "making out", and can be done with clothes on and in public.

6. Gowron: Jedi-training programs can reportedly be completed in under a year [ Qui-Gon nods ], and it is a crime to take a relationship with a beautiful warrior such as yourself for granted! You have your needs, for once…
Padmé: Oh, I have my needs all-right! Only my physical needs are not a problem…

One doesn’t have to be a sex addict, and even if you are you will likely grow out of it.

7. Trans: in the Selinaverse, an organism can expend one mana point to change their DNA and physiology, permanently, but reversibly. So far there are very few takers for a genderchange “operation”.

8. In general, men are attracted more to women, and women are attracted more to men. Both tend to covet competence [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-Tales--Queen-Amidala-vs-the-Klingon-Warriors.html#dedication]. MOTASes are usually flexible enough to forego minor imperfections [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-Tales--The-Fifth-Sith.html].

10. At any point, there is a large number of MOTASes who are not in a relationship, but are open for being in one. ### Forking and Merging

Pleasure and "knowledge" allows two or more memes or memes generators to spawn new ones, as well as be educated themselves.

However, using magic one can duplicate anything while giving the duplicates new souls. E.g: Valentine Gellar [https://www.shlomifish.org/humour/fortunes/show.cgi?id=sharp-sharp-programming-life-according-to-valentine], or Thomas Riker [https://memory-alpha.fandom.com/wiki/Thomas_Riker]. The devils/orcs used it to fork entire universes.

Like the Unix fork() system call [https://en.wikipedia.org/wiki/Fork_(system_call)], wizards’ souls in forked universes are aware that they are the "child process". However, vampires’ souls didn't have that privilege!

[There are mergers / joins [https://www.reddit.com/r/linux/comments/9m8yi7//there_are_forks_of_existing_projects_but_are/]:](https://www.reddit.com/r/linux/comments/9m8yi7//there_are_forks_of_existing_projects_but_are/) too. Also note Microsoft Windows being merged into GNU, Linux, and WINE [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/starved_of_employees.xhtml]. Do note that the two-or-more original souls remain intact and may reappear in different contexts in the future.
One can spawn imaginary worlds which share similarities to our own. E.g:

1. The Buffyverse [https://buffy.fandom.com/wiki/Buffy_the_Vampire_Slayer_and_Angel]

2. The Beckyverse [https://buffyfanfiction.fandom.com/wiki/Beckyverse] - Sarah Michelle Gellar (SMG) [https://www.shlomifish.org/meta/FAQ/biggest_celeb_crush.xhtml] was not born, but Summer Glau, Emma Watson, and Shlomi Fish were.

5. La Linea [https://en.wikipedia.org/wiki/La_Linea_(TV_series)]

- Why the so-called-real-world makes little sense [https://www.shlomifish.org/philosophy/culture/multiverse-cosmology/why-the-so-called-real-world-makes-little-sense/]

The many roads to competence:

( I’m speaking in generalisations. )
• The Bajorans [https://memory-alpha.fandom.com/wiki/Bajoran] became wizards by interpreting the 'prophecies' of the timeless aliens of the wormhole.

• The Klingons [https://memory-alpha.fandom.com/wiki/Klingon] became wizards by using metaphors for physical warfare. (e.g: "Queen Amidala vs. the Klingon Warriors" [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-Tales--Queen-Amidala-vs-the-Klingon-Warriors.html])

• The Ferengi [https://memory-alpha.fandom.com/wiki/Ferengi] became wizards by advocating greed, trickery - and even deceit.

• Yoda [https://starwars.fandom.com/wiki/Yoda] became a wizard by advocating self-control, peacefulness, and a Stoic state of mind.

• Ezekiel [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/guidelines_as_dogma.xhtml] became a wizard by being a standup comedian.

• Felicia Day [https://en.wikipedia.org/wiki/Felicia_Day] started as a computer games' addict, which I had been one as well (and she wasn’t a one-trick-pony).

My watchers and whichers

Emma Charlotte Duerre Watson [https://en.wikipedia.org/wiki/Emma_Watson] (also see my fanfics of her [https://www.shlomifish.org/meta/nav-blocks/blocks/#harry_potter_nav_block]) was born a day after Sarah Michelle Gellar (SMG) [https://www.shlomifish.org/meta/FAQ/biggest_celeb_crush.xhtml]’s 13th birthday. "Emma" means "complete" in proto-Germanic, not unlike "Shlomi" [= "shalom-ful"] [https://www.shlomifish.org/meta/FAQ/your_name.xhtml]. "Eymah" means "terror" in Hebrew, while "Em" means "mother". "Sarah" means "a [female] minister" or "a ruler". "Charlotte" is cognate with both "Sarah" and "Shlomi" and also means "a ruler".

So it is likely that she was conceived as a bridge between SMG and me. Timing

The last name "Watson" is cognate with "watcher", and I suspect she is related to "Dr. Watson" [https://en.wikipedia.org/wiki/Dr._Watson] from Sherlock Holmes.

As a watcher, Melissa Joan Hart (MJH) was ambitious, and possibly overly so. She used Dark Helmet from Spaceballs [https://spaceballs.fandom.com/wiki/Dark_Helmet] as an anti-role-model. However, her liberal use of time wraps and time travel (which likely were employed by Maimonides before) earned her the unflattering nickname "World's oldest teenager". (References: Ambassador Hart [https://www.shlomifish.org/humour/fortunes/show.cgi?id=shlomif-story-of-Gul-Dukat-in-the-Selinaverse] ; "It doesn't take a witch to fix this computer..." [https://www.shlomifish.org/humour/fortunes/show.cgi?id=shlomif-story-it-doesnt-take-a-witch-to-fix-this-computer])

MJH had a string of terminators being cathersysed, so she seemed to have "the golden touch". However, after she began managing me, I ended up terminating Amit instead.

When Emma Watson volunteered to help manage me and Rindolf, she started as a SysCo (= "system coordinator") and requested 100,000 USD/month as a wage (as a starting point for haggling) and MJH was happy to comply right away. When news broke about it, Watson was in tears, but MJH told her they saw an increase in donations and that "War is good for business". So she gave Emma a raise, and made her "a vice president in charge of marketing".

In 1995, Emma Watson and her parents relocated from Paris, to Tel Aviv and Greater London, as by that time, she provided the most income, and her parents were helping her. This was motivated by the desire to

Timing: There may have been hopes to get SMG to terminate me before me hitting puberty on 5 May 1990 [= my 13th birthday].
reduce context switches, and because the Parisians she talked with were annoyed by her absentmindedly using English and Hebrew paradigms in speech.

With Emma's help, Sarah Michelle Gellar (SMG) was terminated by my team, and ascended into a true prophet. SMG and her team also joined mine.

One thing Emma Watson disapproved of was a liberal use of time wraps and time travel. She wanted to have a rough sense of the passage of the "real time" and so used them only during emergencies. She instead depended on other wizard helpers, including those that temporarily assumed her appearance using magic. MJH agreed to disagree on that with her given Watson and her team still got a lot done.

However, at ~1997/1998, MJH was hoping to get me terminated ASAP, but the devils fought back and filled my head with fictional delusions. After I sided with Watson ("real time" and "your time is everybody's time"), MJH passed the leadership to her, and decided to limit her own use of time wraps. Melissa remained part of my/Rindolf/Emma Watson's team.

I recall that having read the first Harry Potter book [https://harrypotter.fandom.com/wiki/Harry_Potter_and_the_Philosopher%27s_Stone] by JK Rowling, I found it enjoyable and accessible, but not as good as past children's literature I had read. The subsequent terrestrial Harry Potter books took themselves too seriously [https://www.shlomifish.org/meta/FAQ/#opinion_on_harry_potter]. Anyway, part of Emma's motivation in playing Hermione in the first Harry Potter film, was for getting me to register her existence [https://twitter.com/shlomifish/status/1511632946658258946]. She and the other actors were also instructed to play hackily and in a "so bad it's good" manner [https://twitter.com/shlomifish/status/1486799232971464704] since they didn't want to be kept on the filming set for long.

At ~2011 when I wrote the proposed cast page of Selina Mandrake - The Slayer [https://www.shlomifish.org/humour/Selina-Mandrake/cast.html], I chose her to play Selina. At 2014 when someone on freenode's #perl insulted Emma’s looks [https://www.shlomifish.org/humour/fortunes/show.cgi?id=sharp-perl-jobs-EmWatson-Saladin-knights-Templar], I felt like he was being blasphemous (= "#####  #####" [https://he.wikipedia.org/wiki/%D7%97%D7%99%D7%9C%D7%95%D7%9C_%D7%94%D7%A7%D7%95%D7%93%D7%A9]). Watson was not a mere actress for me. Someone on freenode noted that Selina resembled me at ~2020. The lives of Emma, Milady Kate [https://buffyfanfiction.fandom.com/wiki/Kate_(Selinaverse)] and me have paralleled (non-coincidentally).

While Emma started as easily hurt, and overreacting/overemotional, (not unlike me) she eventually developed a thicker skin [http://shlomifishwiki.branchable.com/Encourage_criticism_and_try_to_get_offended/] (also like I did). As a result, she was increasingly able to play herself (rather than relying on "stunt doubles"/lookalikes) including on indie films [https://www.shlomifish.org/meta/FAQ/how_do_you_expect_to_afford_the_actors.xhtml], on various school/cons/etc. parody plays [https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/beautiful_people_are_geeks.xhtml], and on my own screenplays featuring her [https://www.shlomifish.org/meta/nav-blocks/blocks/#harry_potter_nav_block].

In a sense, she had both an easier time and a harder time than I had. It was harder for her because she didn't take for granted the cruelties, lies, and obstacles I ran into. On the other hand, the (true prophet) people around her knew better than to overreact when she lost her temper/etc.

**Sorry for the inconvenience:**

If we are to believe Cogito, ergo sum [https://en.wikipedia.org/wiki/Cogito%2c_ergo_sum] (= "I think, therefore I am"), the only thing I can be sure of is that I exist. However, as cool as I may be, I doubt my mind alone could conceive the awesome action heroes listed on this page [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/indiv-nodes/notable-hacker-monarchs.xhtml] including Saladin, Walt Disney, Jim Henson, and Aristotle.
most of whom have ample evidence for being real. And given my present mediocre Inkscape 2-D vector graphics skills, I am enthralled even by the 2-and-a-half dimensions graphics of 1990s computer games (e.g: Monkey Island 2 [https://en.wikipedia.org/wiki/Monkey_Island_2%3A_LeChuck%27s_Revenge]; Street Fighter II [https://streetfighter.fandom.com/wiki/Street_Fighter_II_%28series%29]; Quest for Glory III [https://en.wikipedia.org/wiki/Quest_for_Glory_III:_Wages_of_War]) and those of My Little Pony: Friendship is Magic [https://mlp.fandom.com/wiki/My_Little_Pony_Friendship_is_Magic].

Etc.

They all have enough food and the main reason they still accept money donations is the publicity.

But like in Michael Jackson's "They don't care about us" [https://www.youtube.com/watch?v=QNJL6nuu_Q], they crave love, attention, self-esteem and even fame [https://www.shlomifish.org/philosophy/putting-cards-on-the-table-2019-2020/indiv-nodes/meaning-of-able-competent.xhtml].

So I/we will always play catchup. I was also unaware of many details of my neighbourhood despite having lived here for several decades.

Nevertheless, when a friend gives you a link to a tweet, or a song, or a captioned image, or a short Sesame Street skit - don't tell him that you are now focusing on Ancient Greek philosophy. Moreover, traditional classical music concerts are the "The Emperor's New Clothes" [https://en.wikipedia.org/wiki/The_Emperor%27s_New_Clothes] syndrome, as Noted by Eric Raymond [http://esr.ibiblio.org/?p=4229] and exemplified by the Joshua Bell "Violinist in the Subway" experiment [https://exploringyourmind.com/a-violinist-in-the-subway-proof-that-we-look-without-really-seeing/].

Just because you are a Python contractor, does not mean you should completely abhor XML technologies [https://www.shlomifish.org/meta/FAQ/why_xml.xhtml] or C, or even Perl/CPAN.

“I want to try everything” [https://www.youtube.com/watch?v=LnSYihRoGA4].

I also want to attend some Satanists’ conventions. I’m still a big fan of the Satans despite them deceiving me and making me endure pain and discomfort. Moreover, I likely had an easier time than even my father's father who escaped from the Nazis through the west USSR, and Iran, until settling in Tel Aviv. I have been willing to suffer a little more, if it meant that future generations will suffer much less.
And as I like to say "If I didn't want excitement in my life, then I'd go watch grass grow [https://www.joelonsoftware.com/2005/01/02/advice-for-computer-science-college-students/]".

I believe most of their conventions happen at day time, and are attended by attractive MOTASes [https://en.wiktionary.org/wiki/MOTAS], of whom only a minority have a Goth look.

In a way, I've been doing a Hegelian dialectic [https://en.wikipedia.org/wiki/Dialectic#Hegelian_dialectic] of "thesis \rightarrow antithesis \rightarrow synthesis". I also have been "changing ponies in midwater": changing intermediate conclusions, while keeping similar end results.

Furthermore, “There's more-to-life than accelerating its pace” (to quote Mahatma Gandhi-or-whoever). These past 40 years (give or take some time skews) have been a rollercoaster ride for me, and I want some rest.

### Stranger than fiction

A wise man once said: "Truth is stranger than fiction because fiction needs to make sense.". That's why my hell hole's "real world" cannot be real. I disbelieve it.

### Humans as a disadvantaged species

Q2 [https://stexpanded.fandom.com/wiki/Q2] and the fellow sentient hacker animals used to communicate using mono-syllabic shrieks of variable length. Thus, they wanted a 2-dimensional audible speech system, and were given one based on consonants and vowels.

Moreover, they preferred "modern" English over the alternative (Esperanto?) given English was sexier and more interesting.

### Some vampire/etc. ancestors

- Ya'el ("Y").
- Aryeh ("A")
- Celet ("C"; pronounced "Kelet").
- Ger ("G")

### The Defence Community

The Defence Community comprises of:

- "Western" organisations, eg:
  - The NSA, CIA, FBI.
  - The mossad, the IDF, the Shin Bet.
  - Scotland Yard, MI-5.
- More 'nefarious' organisations:
  - Russia, People's Republic of China, North Korea, Cuba
- Iran (incl Hamas, the Hizbullah)
- The Russian mafia, the Sicilian mafia, the Yakuzah.
- Individuals, including:
  - Chuck Norris.
  - Emma Watson
- Fictional entities such as:
  - Deep Thought [https://hitchhikers.fandom.com/wiki/Deep_Thought] - a powerful supercomputer that can crack RSA, or post-quantum encryptions at the blink of the eye (Reference 1 [http://www.earthstar.co.uk/deep1.htm]; "Fear is the path to the dark side" [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/indiv-nodes/fear-is-path-to-dark-side.xhtml])
  - the Jem'Hadar [https://memory-alpha.fandom.com/wiki/Jem%27Hadar]
  - Fluttershy [http://shlomifishwiki.branchable.com/Fluttershy__44___Princess_of_Princesses__44___head_of_the_secret_cabal_leadership_of_the_Mossad__44___the_already_top_secret_intelligence_agency_of_the_Zionist_conspiracy/]

They consistently publish and avoid mass-surveillance. They are mainly concerned with preventing physical pain and peril.

**Corporations / companies / organisations / schools**

TheCodex™ recognises the concept of a "Corporation" (= many bodies), which can be as small as a regional games' club, or as large as the Q Continuum [https://buffyfanfiction.fandom.com/wiki/Q_Continuum_(Selinaverse)].

Trump, like @fedora, has many employees, and parttime volunteers and fans/frenemies/critics. They act as a geeky beehive not unlike ancient Greek schools.

Reportedly over 80% of Dilbert's strips are based on ideas of fans.

(Tweet [https://twitter.com/shlomif/status/1497889688350334981])

Corporations have souls. Moreover, one must be allowed to disassociate from a corporation.

There is the cliché scene from Trill sitcoms [https://memory-alpha.fandom.com/wiki/Trill_%28planet%29] where a pair of male Japanese tourists arrive there and are enthusiastic. They aren't stupid, just awesomely Jappy. Platonic Ideals [https://en.wikipedia.org/wiki/Theory_of_forms].

(Tweet [https://twitter.com/shlomif/status/1551405512830353409])

A hacker can belong to many corporations:

**Question:** How do you define yourself? Are you a Jew, an Israeli, an agnostic, an Objectivist, a brony, a furry, a Muppets' aficiando, a Perler, a Linuxer, a FOSS enthusiast, an optimist, a Pythoner, …?
**Answer:** I am currently many of these and more. As I noted in an essay, I define myself as "Shlomi Fish". I have my own hybrid philosophy titled "Rindolfism" and it changes almost every day.

(Taken from Shlomi Fish’s FAQ [https://www.shlomifish.org/meta/FAQ/how_do_you_define_yourself.xhtml])

Not-for-profit organisations ("NPOs") are also corporations (Reference [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/#time-is-much-more-important-than-money]).

**Corporations of 2 members: "couples", "pairs"**

Parenthood, childhood, companionship.

TheCodex™ gives special treatment to corporations of two members, called 'pairs'. There are three major types of them:

1. X is a "parent" [= mentor] of Y.
   
   Not necessarily a genetic parenthood, of course.

2. Y is a "child" [= "protege"] of X (if X is a parent of Y).

3. X and Y are companions, and wish to raise mutual children.

   A romantic, sexual, boyfriend+girlfriend or husband+wife relationship is a natural application of this. However, so is a business partnership, or a regular friendship.

   A hacker may opt to break-up / divorce the other pair-member.

**Types of pleasure**

1. humour / amusement

2. awe
   
   • lust

3. joy, fun

4. content-ness, happiness.

5. cruelty, schadenfreude

**My Log of Terminating**

Mom Cimorelli [https://twitter.com/shlomif/status/1477303776495210498] was a terminatrix who wanted to have 11 children given it was her lucky number. However, a vampirella may only give birth to a boy+girl pair. One thing she and I had in common was that we both liked playing Freecell [https://fc-solve.shlomifish.org/faq.html]. I wrote the first versions of Freecell Solver in 2000 shortly before Dani Cimorelli [https://cimorelli.fandom.com/wiki/Dani_Cimorelli], her 6th daughter, was born, so her mother ascended before Dani’s birth.

xkcd #406: venting [https://www.explainxkcd.com/wiki/index.php/406:_Venting] displayed "Shlomi Fish" when viewed by Summer Glau [https://www.shlomifish.org/meta/nav-blocks/blocks/#xkcd_sect]. She was terminated by me shortly after that.

I think the last runner-ups were:

1. Taylor Swift [https://www.shlomifish.org/humour/bits/facts/Taylor-Swift/] - I suspect my echo was her lover. She was terminated by "Summerschool at the NSA" [https://www.shlomifish.org/humour/Summerschool-at-the-NSA/].

Moreover, she and I have a genetic daughter: Rebecca "Becky" Jadzia [lastname], as evidenced by my 2014 wave of inspiration and creativity [https://www.shlomifish.org/humour/stories/#buffy-few-good].

2. Tuomo "Vendu" Venäläinen [https://www.facebook.com/vendu/] - Reference #1
[https://www.shlomifish.org/philosophy/culture/case-for-commercial-fan-fiction/indiv-nodes/be_communicative.xhtml]

I perceived him on freenode as a sloppy/slacker kernel dev, a marijuana user and enthusiast, and as a fan of Rock and metal music.

I suspect Pope Benedict XVI [https://www.shlomifish.org/philosophy/philosophy/putting-all-cards-on-the-table-2013/indiv-nodes/departing_pope_about_twitter.xhtml] was not terminated by me, but rather by either Taylor Swift or Kim Kardashian.

Another challenging adversary was my 7th#12th grades' friend, Tal. At the time, it seemed he was smarter and funnier than me, and had a more vivid imagination. However, I was more idealistic, more diligent, challenged prejudice more, and was sometimes more merciful. My story "The Enemy and how I Helped to Fight it" [https://www.shlomifish.org/humour/TheEnemy/] may have been either the termination final blow or an aftermath.

Ultimatum to the devils (= the gamemasters)

Assuming terrestrial science, I should have died of water deprivation a long time ago. Now, I am holding a grudge against the fuckers and will not forgive them until I see evidence that my favourite child, Christina Grimmie, is alive, healthy, conscious, kicking, and kicking ass! I will rationally forgive them [https://www.shlomifish.org/humour/Queen-Padme-Tales/Queen-Padme-Tales--Queen-Amidala-vs-the-Klingon-Warriors.html#padmes-frustrations-with-her-love-life] after that.

1. If my soul and/or mind perish, then Jehovah (and my name and form) will be violated.
2. If I remain resentful forever, then Jehovah will be violated too.

5. a. Elohim - a player / gamemaster.
   b. "jew" [ ] - a player character.
      a. Time - single dimensional, moving forward, and discrete. As opposed to Einstein's Theory of Relativity [https://en.wikipedia.org/wiki/General_relativity], it is not "just another dimension of a 4-D universe''.
      b. Soul (Reference #1)
      c. Network: set theory and extended Graph Theory ("contextualism")
         • Sets may contain themselves - directly or indirectly.
         • Nodes and links may have subsystems.
         • Links may have more than one entry node.
         Our 3-D universe with matter-based planets / star systems / galaxies / etc. is one possible specialisation of the Fantastecha™ network, but so are other imaginary universes.
         Travelling from one node to a different one requires expending at least one positive unit of time.
         One can also travel a finite, but large, positive amount of time into the future. (E.g: The Ghost Town Pattern)
      d. Mind - a hacker's model of the past states of the Network, and its present state.
      e. Love - pleasure/etc.
      f. Knowledge - education and creation/conception - what yields the most pleasure.
         Changes the Network irreversibly!

Definitions:
1. The media / mediums "in-betweens": the paths that a meme travels until reception.
2. Model (static snapshot) vs. actor / actress (dynamic, changing, but temporary).
3. Nature

Death

As far as we know, nobody and nothing have ever died in Fantastecha™. For example, in the Selinaverse, David used his sling to shoot the pebble close to Goliath's face noting that he missed on purpose.

ceiling satan is watching you

As a gamemaster, and a fucker, a satan reviews the finite, but extremely large data state of the known Fantastecha™ and its hackers' (= player characters) minds. So he knows all your thoughts (including dirty, stupid, or wrong ones), and all your passwords. If you have nothing to hide, "fear is the path to the dark side" [https://www.shlomifish.org/philosophy/philosophy/putting-cards-on-the-table-2019-2020/#fear-is-path-to-dark-side]
Saving Throws

A gamemaster may opt to try to make a hacker do something stupid

mantra

please give me the key to Sesame Street;
and get me there;
open its gate;
and let me in;
I wish to meet my favourite child;
and be slain by her.
